

Serious Bodily Injury/Wrongful Death

Niles Barton has extensive experience defending serious bodily injury and death claims in state and federal courts. We defend individuals and businesses against death and injury claims arising out of motor vehicle accidents, slip and falls and other premises liability matters, toxic torts, and products liability. Our representation often begins at the pre-litigation stages due to the potential large exposure that clients and/or their insurers may face, often involving multiple claimants and complex “excess exposure” issues.
